Overview
Who We Are

• Ambetter from Superior HealthPlan (Ambetter Health) provides market-leading, affordable health insurance on the Health Insurance Marketplace.

• We target a focused demographic – lower income, underinsured and uninsured.

• Ambetter Health delivers high quality, locally-based health-care services to its members, with our providers benefiting from enhanced collaboration and strategic care coordination programs.

• Ambetter Health is the number one carrier on the health insurance marketplace.
We Are Proud to be Your Partner

- The Ambetter Health plan design philosophy is to provide affordable care to individuals or families that need to purchase healthcare coverage on their own.
- Our products focus on various cost shares – many with low or no copay amounts – to meet the budget and utilization needs of these consumers.
  - This gives our members the peace of mind that they have full comprehensive medical coverage.
- Additionally, the emphasis on reducing barriers and improving access to care mitigates the risk of individuals showing up without insurance (uncompensated care).
- Ambetter Health’s generous cost-sharing initiatives lower patient financial responsibility while also reducing the amount that providers need to collect at time of service.
- Most importantly, Ambetter Health plans encourage members to establish relationships with their primary care providers to achieve favorable health outcomes.
The Affordable Care Act

Key Objectives of the Affordable Care Act (ACA):

- Increase access to quality health insurance
- Improve affordability

Additional Parameters:

- Dependent coverage to age 26
- Pre-existing condition insurance plan (high-risk pools)
- No lifetime maximum benefits
- Preventive care covered at 100%
- Insurer minimum loss ratio (80% for individual coverage)
The Affordable Care Act

Reform the commercial insurance market – Marketplace or Exchanges:

• No more underwriting – guaranteed issue
• Minimum standards for coverage:
  – Benefits and cost sharing limits
• Subsidies for lower incomes (100% - 138% FPL)
• Learn more at www.healthcare.gov/
Subsidies come in the form of:

- Advanced Premium Tax Credits (APTC)
- Cost Share Reductions (CSR)

All benefit plans have cost shares in the form of copays, coinsurance and deductibles:

- Some members will qualify for assistance with their cost shares based on their income level.
- This assistance would be paid directly from the government to Ambetter Health.
Ambetter Health now offers a robust suite of innovative networks that give members more coverage options to fit their needs and budget.

By offering increased product options, Ambetter Health also benefits providers by giving them exclusive access to new patient populations.

Each Ambetter Health network is designed to offer members a unique type of coverage option.

- Member plans and benefits can vary and there may be referral requirements for certain types of care to be covered.

As a provider, it is important you confirm which network and plan a member is in before extending care.

- This information is allocated on the member’s ID card and can also be confirmed when verifying the member’s eligibility.
Ambetter Health – Silver and Gold

Formerly Essential/Balanced/Secure
The Ambetter Health Silver and Gold network is our broadest network of healthcare providers and hospitals offering affordable care to individuals or families that need to purchase healthcare coverage on their own.

Ambetter Health Silver Care plans provide the best value and most balance between monthly premiums and out-of-pocket costs.

Ambetter Health Gold offers peace of mind for all healthcare needs. Members can expect higher monthly premiums to limit out-of-pocket expenses later.

PCP Selection and Panel Status:
• Ambetter Health emphasizes to members the importance of establishing a medical home (better care, greater appointment availability, consistent care, etc.). Part of that is the selection of a Primary Care Provider (PCP).

• While Silver and Gold members may see any provider they choose, Ambetter Health encourages providers to emphasize the importance of the medical home relationship to members.

• PCPs can still administer service if the member is not assigned to them and may wish to have member assigned to them for future care.

• PCPs should confirm that a member is assigned to their patient panel.
  – This can be done through the Secure Provider Portal.

Ambetter Virtual Access

- Ambetter Virtual Access leans into the changing dynamics of how providers are delivering care, and how members are seeking care, increasing access to primary and urgent care services in a nimble way.
- Ambetter Virtual Access most closely mirrors the network offered within Silver and Gold.
  - There are a few exceptions most noticeably within our Hospital systems network.
- The Ambetter Virtual Access plan design differs in the following:
  - Teladoc is the preferred PCP group to which members will automatically be assigned.
    - Members under the age of 18 are the exception as they will be assigned to a local PCP.
  - Beginning in 2023 members will be utilizing a new Teladoc application that can be downloaded on a phone or table or by visiting Teladoc.com/AmbetterVirtualAccess/.
  - Teladoc (or local PCP) will be responsible to submit a referral to Ambetter in order for any specialty care provider to render services to our members.
• Referrals are NOT required or applicable to the following specialties or service types:
  – OB/GYN, MH/SUD, Urgent Care, Emergent Care, Labs, Durable Medical Equipment, Ambulance, Radiology and Anesthesia.
  – The above provider or facility types will still be required to be in-network* and prior authorization requirements will continue to apply as applicable.

• The network centers on an online, easily accessible medical home offering, with key features such as:
  • Creates a patient-centered care plan within the app.
  • Easy to access, member-friendly reminders for follow-ups, picking up prescriptions, etc.
  • Full incorporation of virtual behavioral health providers.

• In Texas, members will be enrolled in plans that require referrals. It is possible that providers may see Virtual Access members from other states with a different referral requirement.
  – Always check the member’s ID card to determine if a referral is or is not required.
Verification of Eligibility, Benefits and Cost Shares
Eligibility, Benefits and Cost Shares can be verified in 3 ways:

   - Enter the Member ID Number and the month of service to check eligibility.

3. Contact Provider Services at 1-877-687-1196.
   - Available Monday – Friday, 8:00 a.m. – 6:00 p.m. CST.

If a referral is not initiated, services performed outside of the member's assigned provider or primary care group will be denied.

Prior authorization requirements will also apply, as necessary.

Referral requirements are reiterated throughout the Ambetter Guide and member access experiences to ensure members understand the rules associated with their plan.

Referring providers can use the Secure Provider Portal to initiate referrals on behalf of members.
Specialty Referrals

- **Silver and Gold**
  - Members are educated to seek care or consultation with their PCP first.

- **Virtual**
  - Teladoc (or local PCP) will be responsible to submit a referral to Ambetter Health in order for any specialty care provider to render services to our members.

Prior Authorization

Prior Authorization will be granted at the CPT code level:

• If a claim is submitted that contains CPT codes that were not authorized, the services will be denied.

• If additional procedures are performed during the procedure, the provider must contact Ambetter Health to update the authorization in order to avoid a claim denial.
  – It is recommended that this be done within 72 hours of the procedure; however, it must be done prior to claim submission or the claim will deny.

• Ambetter Health will update authorizations but will not retro-authorize services.
  – The claim will deny for lack of authorization.
  – If there are extenuating circumstances that led to the lack of authorization, the claim may be appealed.
Providers will be exempt for six months from obtaining prior authorizations for specific services in which, during the review period, if they received 90% medical necessity approval, with a minimum of 5 requests per service/procedure code/prescription.

- Concurrent Inpatient review services are excluded from preauthorization exemption.
- Prescription, outpatient and elective inpatient procedures are subject to review for prior authorization exemption.

January and June of each year we are able to review between 5 and 20 medical records for claims received and may rescind prior authorization exclusion if:

- 90% of medical necessity criteria are not met for the sample size.
- Providers may request an independent review from an IRO if they disagree with Ambetter Health’s decision.

Out-of-network providers will still require prior authorization unless the provider is exempt for the service/procedure code/prescription.
Complaint Process
A complaint is a verbal or written expression by a provider, which indicates dissatisfaction or dispute with Ambetter Health’s policies, procedures, or any aspect of Ambetter Health’s functions.

- A letter will be sent to the provider acknowledging receipt of the claim within 5 Business Days.

- Following the investigation of the complaint, a written complaint resolution will be sent to the provider within 30 Calendar Days from the received date of the complaint.
  - The letter includes the decision/resolution of the complaint, the facts utilized to resolve it and the provider’s right to pursue arbitration or file a complaint with TDI if they are not satisfied with the outcome.

- For denials or reconsiderations of processed claims, a provider should follow the Claims Appeal/Reconsideration and Claims Dispute process.
Appeals of Adverse Determination

• Members may designate providers to act as their representative for filing appeals related to adverse determinations
• Must be filed within 180 Calendar Days from the notice of adverse determination.
• Ambetter Health will acknowledge receipt within 5 Business Days of receiving the appeal.
• Ambetter Health will resolve each appeal and provide written notice as expeditiously as the member’s health condition requires, but not to exceed 30 Calendar Days.
• An expedited appeal is available for denials of emergency care, continued stays for hospitalized members, or prescription drugs or intravenous infusions for which a member is receiving benefits; adverse determinations of a step-therapy protocol; or a denial of another service if the requesting health care provider includes a written statement with supporting documentation that the service is necessary to treat a life-threatening condition or prevent serious harm to the patient.
• An expedited appeal review is completed based on the immediacy of the condition, procedure, or treatment, but no later than one working day from the date all information necessary to complete the appeal is received.
